The following provides available information about migrating from previous versions of the Globus Toolkit.

1. Migrating from GT4.0

The public interfaces to Java WS Core (on which DRS is based) have changed and are not backwards compatible. For information on updating your services, see [Section 1, “Updating higher level services”](#).

2. Migrating from GT3

This component is new with GT version 4.0.0; therefore, this section does not apply.

3. Migrating from GT2

This component is new with GT version 4.0.0; therefore, this section does not apply.
